GENERAL PARKING INFORMATION (SEE REVERSE SIDE FOR RULES, PENALTIES & PERMITS)

The Department of Administration, hereafter referred to as ADOA is charged with the responsibility for the administration, operation, maintenance and improvements of parking within the State Capitol Complex in accordance with A.R.S. 41-796 and the Administrative Rules R2-6-201 through R2-6-208.

The responsibility for finding a legal parking space, as well as verifying the validity of any parking permit, rests with the motor vehicle operator.

Parking areas and individual parking space assignments are designated and identified by ADOA. Permits for extended time parking, reserved space, and courier access, as well as employee vehicle decals are provided by ADOA upon receipt and evaluation of a written request from an agency head. ADOA has the right to refuse issuance of parking permits, withdraw them, or change the use of any space or area at anytime. Decals and/or permits are only valid when displayed properly.

Permits do not guarantee a parking place. Lack of space (assigned or not) does not justify a violation of the parking rules.

Rideshare parking membership and decals are available from the TRAVEL REDUCTION & RIDESHARE OFFICE (542-RIDE).

Enforcement responsibilities of all traffic and parking regulations in the Capitol Complex in Phoenix and Tucson rests with the Capitol Police.

Report accidents and violations to the Capitol Police Communications Center (542-4580).
